Inspire! Education Business Partnership

Inspire! is an Education Business Partnership delivering work-related learning, enterprise education and work experience to young people aged 3-19 from schools, colleges and the wider community in Hackney, Camden and neighbouring boroughs. Inspire! aims to support young people to achieve their aspirations, raise their levels of attainment and motivation, provide them with the necessary personal and employability skills for the world of work and give them access to opportunities that may otherwise have remained out of reach. Inspire! works in partnership with local and City businesses and over 2,000 employee volunteers every year to achieve this goal.

**One Education Business
Partnership (EBP)**

One EBP provides a vital service to young people in Hammersmith and Fulham, Kensington and Chelsea and Westminster. Working with a large number of local employers on a variety of engaging programmes, One EBP prepares all young people including those with special educational needs, to enter a competitive workforce, by raising their aspirations and attainment, introducing them to the world of work and giving them hands- on experience of real life careers. Working with employers to support young people in making the right career and study choices and giving them the opportunity to develop key employability skills. This role underpins a core area of work of the Tri-Borough Education Department and is of great value to our schools and young people.
